EDUCATION

- MIT Academy of Engineering**
B.Tech CSE (Data Science)
2025 – Present · Alandi, Pune
- MIT Jr. College, Pune**
HSC — 75.33%
2023 – 2025
- Pirangut English School**
SSC — 84.80%
2013 – 2023

SKILLS

- Python
- Problem Solving
- Communication
- Google Cloud
- Team Work
- Electronics
- Web Basics

LANGUAGES

- English
- Hindi
- Marathi

INTERESTS

- Data Science
- Cloud
- IoT
- Open Source
- Hackathons

UTKARSH TAPISE

ASPIRING DATA SCIENTIST · TECH EXPLORER

PROFILE

Enthusiastic and self-driven first-year B.Tech Computer Science (Data Science) student at MIT Academy of Engineering with a strong foundation in Python programming, analytical thinking, and effective communication. Passionate about solving real-world problems through technology — from building safety-focused hardware prototypes to leading a campus social-media platform. A fast learner, reliable team player, and active hackathon participant with a genuine interest in cloud computing, data analytics, and emerging technologies. Eager to contribute to innovative projects and grow through hands-on experience as an intern or collaborator.

PROJECTS

UniSphere — Campus Social Platform

2026 – Present

Team Lead · Team of 4 Members

- Leading the design and development of a college-wide social connectivity platform aimed at enhancing student engagement and community building.
- Coordinating cross-functional tasks including UI/UX planning, feature scoping, and iterative development cycles using web technologies.
- Practicing product thinking, sprint-based workflow, and team management in a real project environment.

Bike Side Stand Alert System

2025

Department of Electrical Engineering · Individual Project

- Engineered a safety-critical hardware prototype that detects whether a motorcycle's side stand is down and alerts the rider before moving.
- Integrated sensor logic and circuit design; project received recognition from faculty for practical engineering approach and real-world applicability.

To-Do List Application

2025

Personal Project · Python

- Developed a clean, functional task management tool focusing on data structures, state handling, and fundamental UI logic in Python.

CERTIFICATIONS

- Python Essentials 1**
Cisco Networking Academy · Mar 2026
- Python Essentials 2**
Cisco Networking Academy · Apr 2026
- Google Cloud Study Jams**
Google Developer Groups · 2026
- Career Management Essentials**
IBM SkillsBuild · Mar 2026

ACHIEVEMENTS & ACTIVITIES

- Nirmaan 4.0 Hackathon** — Participated in the Nexus of Evolution hackathon (Code Crafters category), building innovative solutions under tight deadlines with a team.
- Google Cloud Jams** — Completed hands-on cloud labs exploring GCP infrastructure, tools, and real-world cloud use cases.
- DEE Project Recognition** — Bike Side Stand Alert project recognised by faculty for safety relevance and practical engineering merit.
